

Subject: Stop needless animal testing

Date: Monday, June 4, 2007 9:48 PM

We are asking you to accept internationally validated non-animal methods, including non-animal test methods for skin and eye irritation, phototoxicity, and pyrogenicity (fever induction), and to follow the additional December 2006 recommendations of the animal protection community <<http://www.stopanimaltests.com/pdfs/ICCVAM-5yearplan-Final.pdf>> . It is time to stop needless animals suffering. Animals feel pain too.
